

Lina Khaled Alamri

Computer Science Graduate | Product & UI/UX Design

linakh1004@gmail.com | 0537242899 | Saudi Arabia | github | Portfolio

PROFILE

Computer Science graduate passionate about designing and developing interactive digital experiences. Skilled in UI/UX design, interactive systems and AI-driven user experiences through hands on academic and personal projects. Experienced in creating user-centered interfaces, immersive digital interactions and collaborative technical projects with strong problem solving and presentation abilities.

EDUCATION

Bachelor's degree in Computer Science (GPA: 4.80/5.00, First-Class Honors)
Taibah University

2021 – Aug 2026
Madina

PROJECTS

UI/UX & Product Design Projects

AstroTalk - Interactive AI & VR Educational System

- Designed the project's UI/UX including user flows, interface layouts and interaction experiences using Figma.
- Led the integration of AI-driven features including conversational interactions, Speech-to-Text and Text-to-Speech functionalities.
- Contributed to immersive VR experiences through scene rendering, textures, skybox environments and normal mapping techniques.

Sunify - Sunglasses E-commerce App

- Designed an e-commerce mobile experience including product catalog, branding and checkout flow.

Travelo - Travel Booking App

- Designed user journeys and high-fidelity interfaces for a travel booking application.

Sneakers Store App

- Designed mobile commerce interfaces with clear navigation and visual hierarchy.

Development Projects

X-Like Social App (Flutter & Firebase)

- Built a social media mobile application using Flutter and Firebase with authentication and interactive user features.

Workshop Booking Application

- Developed a booking application with responsive UI design and organized user interaction flow.

Nearby Store App (Flutter & Geolocation)

- Developed a location-based mobile application using geolocation services and map integration features.

Data Projects

• Power BI Dashboard - Endangered Animals Analysis

Data cleaning, modeling and visualization to present insights about extinct and endangered species.

TECHNICAL SKILLS

UI/UX & Product Design

Figma, Wireframing, User Flows, Prototyping, Design Systems, User-Centered Design

Programming

Develop applications using Flutter, Java, Python, SQL, HTML, CSS and JavaScript with experience in API integration and Firebase fundamentals.

Data & Visualization

Power BI, Excel, Data Cleaning, Data Visualization

AI-Driven Experiences

AI Interaction Design, Speech-to-Text, Text-to-Speech

CERTIFICATES

Microsoft Office Specialist — From Microsoft Office institute.

COURSES

UI Design, Afkar Station 12/2025

Application Develop with Flutter, hash plus. 07/2025

Data Fundamentals with Capstone Project, IBM SkillsBuild 06/2025
